fascinating study of art gallery interiors examines the changing ideals and practices of galleries in Europe and North America from the 18th to the late 20th century. It offers a detailed account of the different displays that have been created—the colors of the background walls, lighting, furnishings, the height and density of the art works on show—and it traces the different scientific, political and commercial influences that have

behind their development. Charlotte Klontz shows that scientists like Hermann von Helmholtz and Wilhelm Wundt advanced theories of perception that played a significant role in justifying new modes of exhibiting. Equally important for the changing modes of exhibition in art galleries was what Michael Baxandall has called "the period eye," a way of seeing informed by the impact of new fashions in interior decoration and by department store and shop window displays. The history of museum interiors, she argues, should be appreciated as a revealing chapter in the broader history of experience.

world - from marabi to mbaqanga, from boeremusiek to bubblegum, from kwela to kwaito. Yet the risk that future generations of South Africans will not know their musical roots is very real. Of all the recordings made here since the 1930s, thousands have been lost for ever, for the powers-that-be never deemed them worthy of preservation. And if one peruses the books that exist on South African popular music, one still finds that their authors have on occasion jumped to conclusions that were not as foregone as they had assumed. Yet the fault lies not with them, rather in the fact that there has been precious little documentation in South Africa of who played what, or who recorded what, with whom, and when. This is true of all music-making

in this country, though it is most striking in the musics of the black communities. Beyond Memory: Recording the History, Moments and Memories of South African Music is an invaluable publication because it offers a first-hand account of the South African music scene of the past decades from the pen of a man, Max Thamagana Mojapelo, who was situated in the very thick of things, thanks to his job as a deejay at the South African Broadcasting Corporation. This book - astonishing for the breadth of its coverage - is based on his diaries, on interviews he conducted and on numerous other sources, and we find in it not only the well-known names of recent South African music but a countless host of others whose contributions

be recorded if we and future generations are to gain an accurate picture of South African music history of the late 20th and early 21st centuries.

Twelve Years a Slave is Northup's moving memoir, revealing unimaginable details of the horrors he faced as a slave on Southern plantations, and his unshakable belief that he would return home to his family. Written in the year after Northup was freed and published in the wake of Harriet Beecher Stowe's Uncle Tom's Cabin, Northup's story was quickly taken up by abolitionist groups and news organizations as part of the fight against slavery, and continues to resonate more than a century after the end of the American Civil War.
