Citizen 865 Debbie Cenziper 2019-11-12 The gripping story of a team of Nazi hunters at the U.S. Department of Justice as they raced against time to expose members of a brutal SS killing force who disappeared in America after World War Two. In 1990, in a drafty basement archive in Prague, two American historians made a startling discovery: a Nazi roster from 1945 that no Western investigator had ever seen. The long-forgotten document, containing more than 700 names, helped unravel the details behind the most lethal killing operation in World War Two. In the tiny Polish village of Trawniki, the SS set up a school for mass murder and then recruited a roving army of foot soldiers, 5,000 men strong, to help annihilate the Jewish population of occupied Poland. After the war, some of these men vanished, making their way to the U.S. and blending into communities across America. Though they participated in some of the most unspeakable crimes of the Holocaust, "Trawniki Men" spent years hiding in plain sight, their terrible secrets intact. In a story spanning seven decades, Citizen 865 chronicles the harrowing wartime journeys of two Jewish orphans from occupied Poland who outran the men of Trawniki and settled in the United States, only to learn that some of their one-time captors had followed. A tenacious team of prosecutors and historians pursued these men and, up against the forces of time and political opposition, battled to the present day to remove them from U.S. soil. Through insider accounts and research in four countries, this urgent and powerful narrative provides a front row seat to the dramatic turn of events that allowed a small group of American Nazi hunters to hold murderous men accountable for their crimes decades after the war's end.

The Black Musician and the White City Amy Absher 2014-06-16 Amy Absher’s The Black Musician and the White City tells the story of African American musicians in Chicago during the mid-twentieth century. While depicting the segregated city before World War II, Absher traces the migration of black musicians, both men and women and both classical and vernacular performers, from the American South to Chicago during the 1930s to 1950s. Absher’s work diverges from existing studies in three ways: First, she takes the history beyond the study of jazz and blues by examining the significant role that classically trained black musicians played in building the Chicago South Side community. By acknowledging the presence and importance of classical musicians, Absher argues that black migrants in Chicago had diverse education and economic backgrounds but found common cause in the city’s music community. Second, Absher brings numerous maps to the history, illustrating the relationship between Chicago’s physical lines of segregation and the geography of black music in the city over the years. Third, Absher’s use of archival sources is both extensive and original, drawing on manuscript and oral history collections at the Center for Black Music Research in Chicago, Columbia University, Rutgers’s Institute of Jazz Studies, and Tulane’s Hogan Jazz Archive. By approaching the Chicago black musical community from these previously untapped angles, Absher offers a history that goes beyond the retelling of the achievements of the famous musicians by discussing musicians as a group. In The Black Musician and the White City, black musicians are the leading actors, thinkers, organizers, and critics of their own story.
