*Bronze Age Settlement and Land-Use in Thy, Northwest Denmark (Volume 1 & 2)* Jens-Henrik Bech 2018-06-04 This two volume monograph about the region of Thy in the early Bronze Age provides a high resolution archaeological and ecological model of the organisation of landscape, settlements and households during the period 1500-1100 BC. Bordering the North Sea to the west, and the calmer waters of the Limfjord to the east, the region of Thy in Denmark experienced four centuries of intense economic and demographic expansion. By combining results from environmental and economic research (pollen and palaeo-botanical analyses) with intensive field surveys and excavations of farmsteads with exceptional preservation, it has been possible to open a window to the changes that transformed Bronze Age society and its environment during a few centuries of exceptional expansion and wealth consumption. The results from this interdisciplinary venture made it possible to link together the histories of local farmsteads with the wider regional and global history of the Bronze Age in North-western Europe during this period. Here is much to feed on for students and researchers of the Bronze Age alike.

**Cut & Run** Madeleine Urban 2008-09-01 A series of murders in New York City has stymied the police and FBI alike, and they suspect the culprit is a single killer sending an indecipherable message. But when the two federal agents assigned to the investigation are taken out, the FBI takes a more personal interest in the case. Special Agent Ty Grady is pulled out of undercover work after his case blows up in his face. He's cocky, abrasive, and indisputably the best at what he does. But when he's paired with Special Agent Zane Garrett, it's hate at first sight. Garrett is the perfect image of an agent:

serious, sober, and focused, which makes their partnership a classic cliché: total opposites, good cop-bad cop, the odd couple. They both know immediately that their partnership will pose more of an obstacle than the lack of evidence left by the murderer. Practically before their special assignment starts, the murderer strikes again - this time at them. Now on the run, trying to track down a man who has focused on killing his pursuers, Grady and Garrett will have to figure out how to work together before they become two more notches in the murderer's knife."

All Things Must Pass Away Chicago Review

Press, Incorporated 2022-11-01 "Womack and Kruppa present a thorough history of Harrison and Clapton's songmaking and recording sessions." — Booklist Newly revised and expanded, this paperback edition features exclusive material from the Malcolm Frederick Evans archives and draws on rare material released by the Harrison Estate. A new appendix includes a detailed sessionography and personnel listings for All Things Must Pass, assembled from recently discovered documentation. George Harrison and Eric Clapton embarked upon a singular personal and creative friendship that impacted rock's unfolding future in resounding and far-reaching

ways. *All Things Must Pass Away: Harrison, Clapton, and Other Assorted Love Songs* traces the emergence of their relationship from 1968 through the early 1970s and the making of their career-defining albums, both released in November 1970. Authors Womack and Kruppa devote close attention to the climax of Harrison and Clapton's shared musicianship—the creation of *All Things Must Pass*, Harrison's powerful emancipatory statement in the wake of the Beatles, and *Layla and Other Assorted Love Songs*, Clapton's impassioned reimagining of his art via Derek and the Dominos—two records that advanced rock 'n' roll from a windswept 1960s idealism into the wild and expansive new reality of the 1970s. *All Things Must Pass Away* reveals the foundations of Harrison and Clapton's friendship, focusing on the ways their encouragement and support of each other drove them to produce works that would cast long shadows over the evolving world of rock music.

*Reward System* Jem Calder 2022-07-19 “Reward System is an exhilarating and beautiful book by an extraordinarily gifted writer. Reading these stories, I found myself thinking newly and differently about contemporary life.” —Sally Rooney, author of *Beautiful World, Where Are You* Julia has landed a fresh start—at a “pan-European” restaurant. “Imagine that,” says her mother. “I’m imagining.” Nick is flirting with sobriety and nobody else. Did you know adults his age are now more likely to live with their parents than with a romantic partner? Life should have started to take shape by now—but instead we’re trying on new versions of ourselves, swiping left and right, searching for a convincing answer to that question: “What do you do?” Jem Calder’s *Reward System* is a set of ultra-contemporary and electrifyingly fresh fictions about work, relationships, and the strange loop of technology and the self. They are

about a generation on the cusp: the story of two people enmeshed in Zooms and lockdowns, loneliness and love, devices and desires. Hyperaware but also deeply confused about who they are, Julia and Nick reveal the way we live now in a startling new light.

**Diana R. F. Delderfield** 2014-07-22 From the New York Times–bestselling author of *God is an Englishman* comes the timeless story of a love that could not be denied, set in the countryside of early twentieth-century England. Fifteen-year-old John Leigh is living with his aunt and uncle in a small Devon village when he meets the girl fated to change his life. From the moment he first sees Diana Gayelorde-Sutton astride a horse, looking as poised and regal as a queen, he falls irrevocably in love. But they are worlds apart: He is a poor Cockney orphan and she is the pampered only daughter of a powerful businessman. They become inseparable, though, and friendship deepens into love. As the 1920s segue into the 1930s, John becomes a small-town newspaperman while Diana travels the world. Yet they always return to each other, until one earth-shattering day. And soon World War II will cast its long shadow over the world, testing their relationship in ways they never imagined. Diana is a stunning story of war and remembrance, love and redemption.

**The Geography of Environmental Crime**

Gary R. Potter 2016-06-30 This book critically examines both theory and practice around conservation crimes. It engages with the full complexity of environmental crimes and different responses to them, including: poaching, conservation as a response to wildlife crime, forest degradation, environmental activism, and the application of scientific and situational crime prevention techniques as preventative tools to deal with green crime. Through the contributions of experts from both the social and ecological sciences, the book deals with theoretical and practical considerations that impact on the effectiveness of contemporary environmental criminal justice. It discusses the social construction of green crimes and the varied ways in which poaching and other conservation crimes are perceived, operate and are ideologically driven, as well as practical issues in environmental criminal justice. With contributions based in varied ideological perspectives and drawn from a range of academic disciplines, this volume provides a platform for scholars to debate new ideas about environmental law enforcement, policy, and crime prevention, detection and punishment.
